STATEMENT BY THE SELECTMEN

TO THE CITIZENS AND TAXPAYERS
OF FARMINGTON, NEW HAMPSHIRE:

We submit this annual report for the fiscal year ending February 1, 1933, for your consideration, believing it represents a true picture of the conduct of your town's business, clearly detailed and itemized. Your careful scrutiny and criticism is invited.

Emergency in town finances is still apparent. We again recommend expenditures be heavily reduced. The earning power of the taxpayer having been reduced, it is essential the tax burden be made to correspond with the ability to pay. Sound, economical principles should be our guide to accomplish this result.

We recommend the adoption of the budget system. That a committee be appointed to act in conjunction with the selectmen to carefully check each item on which the tax money is raised. This committee, in our opinion, should include one member of the School Board and Precinct. As these two governmental departments spend over fifty per cent of the tax money, a closer relation between the departments working along the lines of economy should produce favorable results. If one department economizes and another does not, the maximum amount of efficiency is not obtained. Economy must be practiced in the school and precinct expenditures to effect any material reduction on the tax rate.

That a road agent be appointed is still a matter which every taxpayer should consider. Combining the

town road work with the work of the state patrolman in charge of trunk line and state aid roads has saved the taxpayers a considerable amount of money. This cannot be denied. The work performed by our present road agent has been done in an efficient and economical manner and has been highly commented on by the state highway department. In all probability the present road agent will have charge of the trunk line and state aid roads the coming year, and we believe the state patrolman should be endorsed as town road agent which will combine the road work under one supervision and eliminate duplication of purpose and waste.

The year just closed has been a trying one for business, individuals and municipalities and we believe the reduction in the town debt of $9,417.77 under these trying conditions shows an earnest effort in the right direction of all town officials and employes. In closing, we wish to extend our appreciation to this group as well as the many individuals who contributed so much to the success of the administration this year.

ORIN N. HUSSEY,
EVERETT S. GRAY,
ERNEST E. LEFAVOUR,
Selectmen of Farmington.
